

Elevating Life: A Moment to Soar

CUBICLE CHALLENGE FOR NORTHERN NEVADA CHILDREN

November 15th, 2011 ~ February 15th, 2012

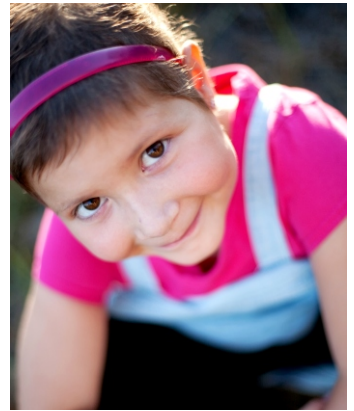

More than 48 new childhood cancer cases are expected to be diagnosed in northern Nevada next year. Sadly, there is no comprehensive treatment center here for children with cancer. Families must spend time and resources to travel out of state to receive lifesaving medical treatment. It's an emotionally and financially devastating fight for the families who battle childhood cancer, and treatment typically takes 2 to 5 years. Perhaps you have even experienced the situation in your own circle of friends. At present we have 164 families eligible for NNCCF services.

Now, from your own cubicle, you can help! November 15th through February 15th, people across Northern Nevada will come together to raise needed funds in various ways to help local children with cancer and their families. The money raised will help provide financial assistance and compassionate support programs for local northern Nevada children fighting childhood cancer.

We're challenging you and other office workers to find creative ways to collect the most money for NNCCF. Ideas include bake sales from your cubicle during lunch, or posting inspirational quotes for the day for a small donation. Play a "Picture Match" game where other employees pay for a guess at matching baby, high school or pet pictures of management or staff. Offer a prize or fun incentive for the most correct answers. You can dream up even more ways; the sky's the limit here ... and the kids and their families are the benefactors!

For more information on how you can get involved, contact NNCCF at 775-825-0888 or email Debbie@NVchildrenscancer.org. Thank you in advance for your participation!
